

Insight Meditation & Qigong Retreat *with Shifu Andy James*

Insight Meditation (Vipassana) is the foundation of Buddhist meditation practices. Simple, yet profound and powerful, it helps build awareness in each moment so you can begin to understand and free yourself from restrictive patterns, whether mental, emotional and physical. Ongoing practice leads not only to compassion and open-heartedness, but clarity and wisdom. Andy also uses active self-inquiry meditations to tackle specific conflicts.

Qigong techniques will be specially selected by Shifu James to enhance cleansing, opening and grounding during the retreat. Qigong regulates body, energy (Qi) and all Chinese Medicine (TCM), internal martial arts and spiritual transformation such as Traditional Chinese Mind-Body Skills for Yoga and Fitness Instructors.

Harmony Dawn Retreat will host the retreat. It is custom-built for transformative work. Using Feng Shui and the latest sustainable energy technologies, it is nestled in the Northumberland hills, a short walk through the forest to Rice Lake. Meals are not only famously delicious, but carefully chosen and balanced.
